

Tejas Bharsake

Software Developer (.NET)

+91- 9579395732

tejasbharsake9@gmail.com

Professional Summary

.NET Developer with 3.1+ years of experience in building scalable web and enterprise applications using .NET Core, C#, ASP.NET MVC, and Angular, along with modern AI-assisted development tools. Expertise in RESTful API development, Azure cloud deployment, and database management using SQL Server, PostgreSQL, and Entity Framework. Strong understanding of OOP, SOLID principles, and design patterns, with hands-on experience in secure payment systems, CI/CD pipelines, and production deployments. Adept at leveraging AI tools and modern development practices to enhance productivity, code quality, and faster delivery of robust software solutions.

Core Skills

Languages: C#

Frameworks: .NET, .NET Core, ASP.NET, MVC, Microservices, Entity

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Angular, jQuery, AJAX

Databases: SQL Server, PostgreSQL, MySQL

Tools & IDEs: Visual Studio, SSMS

Version Control: Git

AI Models Tools: Codex AI, ChatGPT, Google Gemini, Claude, DeepSeek, Mistral, Grok, Qwen,

AI Development Tools: Cursor IDE, GitHub Copilot, AI-assisted coding, Prompt Engineering,

Methodologies: Agile, Scrum, Jira

Others: RESTful APIs, JSON, Lambda Expressions, LINQ, ADO.NET

Work Experience

Software Engineer

Digitalyoushop AI| Pune, India | Nov 2022– Present

Key Responsibilities:

- Developed robust web and desktop applications using .NET Core, C#, and MVC.
- Translated business requirements into high-performance technical solutions.
- Designed and integrated RESTful APIs with secure authentication.
- Managed database operations using Entity Framework, LINQ, and ADO.NET.
- Conducted code reviews, unit testing, debugging, and deployment activities.
- Utilized AI tools (ChatGPT, Cursor, Copilot) for code optimization, debugging, and faster development cycles
- Maintain documentation for technical design, workflows and deployment process.

Projects

1. Medicine Inventory Management System

Role: Full Stack .NET Developer

Technologies: Angular, React, HTML5, CSS3, JavaScript, .NET Core, C#, SQL Server, MVC, Entity Framework Azure DevOps, Azure App Service, Azure SQL.

Description: Developed a hospital and pharmacy inventory system to manage stock levels, generate alerts for low/expiring medicines, and provide detailed reporting.

Responsibilities:

- Built responsive UI using Angular, HTML, CSS, and JavaScript.
- Developed backend logic with .NET Core and MVC architecture.
- Implemented Entity Framework and designed SQL stored procedures and triggers for automated stock updates database operations.
- Created alert notifications for stock and expiry monitoring.
- Designed reporting modules with filtering and export features.
- Deployed the application to Azure App Service and migrated the database to Azure SQL Database.
- Configured CI/CD pipelines using Azure DevOps for automated build, testing, and deployment.

2. E-Commerce Admin & Refund Management System

Role: Full Stack .NET Developer

Description: Web-based admin application for managing orders, payments, refunds, complaints, and product Management. Enables administrators to process online/COD refunds, manage customer complaints, and automate notifications using APIs and SQL procedures.

Responsibilities:

- Developed, enhanced, and maintained admin modules using ASP.NET MVC, C#, and implement role-based authentication and authorization.
- Designed and implemented secure Razorpay payment and refund integration with APIbased workflows.
- Integrated REST APIs and SQL stored procedures for order, refund, and complaint management.
- Implemented dynamic modals, AJAX-based operations.
- Collaborated with Product Owners and team leads for requirement gathering and solution design.
- Participated in sprint planning, daily stand-ups, and deployment activities.
- Wrote clean, scalable code and deployed applications to production.

Technologies Used: C#.NET Core MVC, SQL Server, WCF, REST APIs, JavaScript, jQuery, Bootstrap, React.js, CSS3

Education

B.E – Bachelor of Engineering| Computer Science Engineering,

Padmashri Dr. V.B. Kolte College Of Engineering
